 Training and Skills™

Fire Safety for Managers

At IOSH, we know that the best way to achieve safety and health training success is to get people fully involved, having fun and learning by doing. We want to get delegates really thinking about what they're learning – and having the confidence and enthusiasm to put it into practice when they're back at work – so that everyone notices the difference.

Fire Safety for Managers is at the cutting edge of fire safety training for managers and supervisors. You'll find a practical programme, full of step-by-step guidance, and a sharp business focus. But you'll also find that the content engages and inspires your staff – critical to getting the message embedded across the whole organisation.

Why *Fire Safety for Managers*?

Fire Safety for Managers is designed for managers and supervisors in any sector, and any organisation worldwide, who require an awareness of fire safety. They won't suddenly become fire safety experts – but they'll get up-to-speed on the practical actions they need to take, and gain the knowledge and tools to tackle the relevant fire safety issues they're responsible for. Importantly, *Fire Safety for Managers* makes a powerful case for fire safety being an integral part of day-to-day management and business.

What does the business get?

- Peace of mind from training that's designed and quality-controlled by IOSH, the Chartered body for safety and health professionals
- Flexibility – the programme can be delivered flexibly so that it suits your business
- Efficient and effective learning – fire safety basics are covered in a single programme
- Globally-recognised, respected and certificated training for your managers and supervisors
- Memorable and thought-provoking facts and case studies from across the globe help drive the points home over the whole course. Each module is backed by crystal-clear examples and recognisable scenarios, and summaries reinforce the key learning points

Fire Safety for Managers covers...

- Employers' responsibilities
- Fire and fire safety measures
- Assessing fire risks
- Creating a fire safety culture

Successful delegates are awarded an IOSH *Fire Safety for Managers* certificate.

What results can I expect?

- Improved organisation-wide fire safety awareness culture and appreciation of fire safety measures
- Active staff involvement to improve the workplace
- Enhanced reputation within your supply chain

Fire Safety for Managers is delivered by IOSH's network of approved training providers.

IOSH is the Chartered body for health and safety professionals. With over 47,000 members in more than 130 countries, we're the world's largest professional health and safety organisation.

We set standards and support, develop and connect our members with resources, guidance, events and training. We're the voice of the profession and campaign on issues that affect millions of working people.

IOSH was founded in 1945 and is a registered charity with international NGO status.
